John,

Dean is of the opinion that the Town can do whatever it wants with the property once it owns it (subject to counsel approval). He believes that the policy should read that, if the Town Manager believes the property is in disrepair, the manager may seek approval of the Counsel to first offer the property to the neighbors for the taxes etc. on the condition of repair or removal of the buildings.

Best,

Josh

RE: MMA's General Assistance Ordinance Appendixes Changes

DATE: September 9, 2015

Enclosed please find MMA's new General Assistance Ordinance Appendixes (A, C & D), which become effective on October 1, 2014.

The changes are to the Total Monthly Allowed General Assistance Maximums, which are calculated on the basis of the 2015-16 HUD Fair Market Rent values. The Housing maximums were developed by MMA using 2015-16 HUD Fair Market Rent value, with the applicable housing electric utility and heating allowances, as developed by the Maine State Housing Authority (MSHA). Under Appendixes D the only change is to the Electric with hot water for 1-2 individuals. The Department of Human Services has accepted all figures to be reasonable and sufficient.

Even if the Municipality has adopted MMA's General Assistance Ordinance, the municipal officers must still approve the new enclosed appendixes. This replacement assumes prior adoption and will occur every October.

Upon approval a copy of the signed ordinance must be submitted to MMA and the Department of Human Services.

**Re: Fire Department Entry Doors Replacement Request**

---

Last year we were able to improve the heating efficiency of the Fire Department building by replacing all of the upstairs and downstairs windows. These needed to be replaced as they were very old and were not air tight. Replacing them went a long way to help reduce fuel consumption and provide a warmer working environment for the fire fighters.

Another area where we lose heat are the two entry doors. Currently we have a few issues with these doors, both doors and frames are rusted, one door all the way through and one frame all the way through. The door on the side towards the storage building also is leaking during hard rains. Water leaks into the entry and accumulates at the base of the stairs causing a slipping hazard when the crew comes down from upstairs or walks in from outside. They are also very inefficient and are not air tight.

I would like to propose we replace these doors as soon as possible using the monies available in our Fire/Amb reserve accounts. Portland Glass has provided the following quote for replacement of both doors:

<b>Replace side door toward storage building with steel door (small window 4x25) Includes installation new w/strips and stoop)</b>	<b>\$ 625.00</b>
<b>Replace rear door and frame with steel door (no glass) Includes new frame, installation, new w/strips and stoop)</b>	<b>\$ 1290.00</b>
<b>Total Cost To Replace</b>	<b>\$ 1915.00</b>

Please let me know if you have any questions or concerns.
