Town Manager's Report May 11, 2017

- 1. Next Regular Council Meetings – to be held in Council Chambers at 4:30 p.m.**
 - A. May 25, 2017**
 - B. June 8, 2017**
- 2. Streaming Meetings –** At the last budget meeting someone inquired as to how many meetings we can stream per our contract with Town Hall Stremms. We were informed that the Town can stream five meetings per month at the \$200.00 per month rate. The unlimited package is \$250.00 per month.
- 3. Meeting with Our Katahdin –** The Chairman will be meeting with Mike Osbourne and Sean DeWitt either this Friday or next Wednesday to work on the term sheet for the public-private partnership.
- 4. Budget Meeting -** I would like to set a date next week to have another budget workshop. I think we should also discuss the adoption process with regard to the budget orders. For the last couple of years, the entire budget has been adopted on the reading of one order. I recommend that an order should be written to separately approve each department or cost center
- 5. Sewer Line on Main Avenue –** Allen's Sewer and Drain Cleaning removed some roots in the line on Main Avenue from Colby Street to Bates Street. This will solve the problem for a few years and we will continue to monitor it for any further problems with roots.

- 6. Art Festival** – We were advised by the Town Attorney that this was something the town should not be part of. Dean should be sending an email out to everyone that explains this.
- 7. Nadeau Building** – I spoke with Fred Michaud on Tuesday, May 9th. He said that they should know if they are going to get the Sewall grant by early June, but was not sure if they will get the full amount. If they do not receive enough funds to do the job right, the project may be abandoned.
- 8. Letter of Support** – Our Katahdin would like the Town to write another letter of support for their application to ConnectME for grant funding. I have attached a previous letter of support and I will make the necessary changes if the Council agrees to this request.

**RE: ConnectME Planning Grant
Millinocket, Maine**

Dear Ms. Leahy:

I am writing this letter on behalf of the Millinocket Town Council. Millinocket is a small town in Central Maine whose economy depended almost entirely on a paper mill from its inception. When the mill closed its doors and shut down for the final time in 2008, the town lost over two million dollars in taxes, its economy tanked, and unemployment soared to nearly twenty percent.

There are currently a number of economic development committees that focus on establishing a new footprint in Millinocket in the industrial, tourism, and retail sectors. For these reasons, the town is extremely interested in diversifying and we believe that the availability of high speed internet access will aid our recovery in the aforementioned market segments. It is for these reasons that we support Our Katahdin in pursuing a ConnectME Planning Grant.

A significant portion of Millinocket's economic success in the future is going to depend on small business. Entrepreneurs require additional mobile technology to develop their companies. A connection to broadband will help further productivity and generate new efficiencies and economies of scale. As such, the town recognizes that access to high-quality, affordable, and reliable broadband is a critical element to its community and future. High-speed Internet will help the town attract and retain interest and people. Additionally, broadband will help secure improved medical treatment for the town's growing elderly population since doctors will no longer have to be in the physical presence of their patients to review their symptoms.

In 2012, Maine Fiber Optic Company completed a 1,100 mile fiber optic network. The economic benefits have already been felt in different parts of the State. Unfortunately, the

project only lays a spine throughout some rural counties like Piscataquis and Penobscot, leaving towns like Millinocket off the grid. It will be up to local Internet service providers to connect outlying communities and homes, a chasm known as the "Last Mile." The ConnectME Planning Grant can assist us by engaging planners and engineers to prepare us for the imminent attachment to the "Three Ring Binder."

The benefits of broadband will not only help entice new citizens to locate in the area, but it will also slow down the out-migration of its young, college-educated residents. Professionals could be able to work from their homes or another office which can lead to increased productivity, employee satisfaction, reduced travel, and lowered costs. Additionally, broadband will provide an advantage to people with children and other commitments to restructure their day.

Millinocket is currently trying to encourage a data center to locate within its boundaries. The town has access to low-cost energy, water, and a climate that enhances the success of such a project. But the town needs 21st century telecommunications to enjoy a 21st century economy. Access to broadband will no doubt complement this endeavor.

Businesspeople want to remain in Millinocket as long as they can connect to their employees and the global Internet. Thank you for considering Our Katahdin's grant application for the ConnectME Planning Grant, which we believe has the potential to assist revitalizing our economy and promote economic development.

Sincerely,
Paul Sannicandro
Millinocket Town Council

NOTICE - SPECIAL ATTENTION

§653. Hearings; bureau review; appeal

1. **Hearings.** The municipal officers or, in the case of unincorporated places, the county commissioners of the county in which the unincorporated place is located, may hold a public hearing for the consideration of applications for new on-premises licenses and applications for transfer of location of existing on-premises licenses. The municipal officers or county commissioners may hold a public hearing for the consideration of requests for renewal of licenses, except that when an applicant has held a license for the prior 5 years and a complaint has not been filed against the applicant within that time, the applicant may request a waiver of the hearing.

A. The bureau shall prepare and supply application forms. [1993, c. 730, §27 (AMD).]

B. The municipal officers or the county commissioners, as the case may be, shall provide public notice of any hearing held under this section by causing a notice, at the applicant's prepaid expense, stating the name and place of hearing, to appear on at least 3 consecutive days before the date of hearing in a daily newspaper having general circulation in the municipality where the premises are located or one week before the date of the hearing in a weekly newspaper having general circulation in the municipality where the premises are located. [1995, c. 140, §4 (AMD).]

C. If the municipal officers or the county commissioners, as the case may be, fail to take final action on an application for a new on-premises license or transfer of the location of an existing on-premises license within 60 days of the filing of an application, the application is deemed approved and ready for action by the bureau. For purposes of this paragraph, the date of filing of the application is the date the application is received by the municipal officers or county commissioners. This paragraph applies to all applications pending before municipal officers or county commissioners as of the effective date of this paragraph as well as all applications filed on or after the effective date of this paragraph. This paragraph applies to an existing on-premises license that has been extended pending renewal. The municipal officers or the county commissioners shall take final action on an on-premises license that has been extended pending renewal within 120 days of the filing of the application. [2003, c. 213, §1 (AMD).]

D. If an application is approved by the municipal officers or the county commissioners but the bureau finds, after inspection of the premises and the records of the applicant, that the applicant does not qualify for the class of license applied for, the bureau shall notify the applicant of that fact in writing. The bureau shall give the applicant 30 days to file an amended application for the appropriate class of license, accompanied by any additional license fee, with the municipal officers or county commissioners, as the case may be. Subject: Fiberoptics

Hi John,

As part of the effort to build out hotspots downtown we would like to install a wi-fi transponder on top of the town office. The transponders are 2 ft x 2 ft and won't puncture the roof of the building.

There will be three transponders downtown with locations proposed at town office, Design Lab, and Scootic. To ensure a strong signal and full coverage on Penobscot Avenue we need to feed two of the three with fiber-optics. Design Lab already has fiber-optics and we would like the second location to be the town office.

We believe that the town office currently has 7 megabits per second (mbps)/1mpbs for \$60 per month. I have spoken with Fletcher Kittredge, CEO of GWO, he laid out two options for the town to significantly upgrade its speed with fiber-optics.

From Fletcher:

The town's current connection is via an old copper line that can't handle the additional speed. I can think of two ways forward:

- 1. The Town can pay for the capital cost to install fiber, and we will then donate the bandwidth. Just a guess, but I would imagine the capital cost will be under \$5,000. Of course we would give an exact estimate before proceeding.**
- 2. The Town can accept the "free upgrade" offer, in which case there will be no capital cost and we will donate the bandwidth. The reason we want the Town to take the "free" upgrade offer is that it would extend their current contract which expires in 2019 to 2022. I think it is a good deal for the town.**

The new speed for the town will be a minimum of 25mbps/25mbps at zero additional cost if you select option #2.

Please let us know if you need any additional information. I have cc'd Lucy Van Hook who can help to answer any questions you or the council may have.

Thanks,
Mike

You would have to sign a new contract at that time. You could probably negotiate a longer contract if you'd like.

There would be no install charge.

Subject: Fiberoptics

Hi John,

As part of the effort to build out hotspots downtown we would like to install a wi-fi transponder on top of the town office. The transponders are 2 ft x 2 ft and won't puncture the roof of the building.

There will be three transponders downtown with locations proposed at town office, Design Lab, and Scootic. To ensure a strong signal and full coverage on Penobscot Avenue we need to feed two of the three with fiber-optics. Design Lab already has fiber-optics and we would like the second location to be the town office.

We believe that the town office currently has 7 megabits per second (mbps)/1mpbs for \$60 per month. I have spoken with Fletcher Kittredge, CEO of GWO, he laid out two options for the town to significantly upgrade its speed with fiber-optics.

From Fletcher:

The town's current connection is via an old copper line that can't handle the additional speed. I can think of two ways forward:

PROVIDING FOR: An abatement of sewer fees.

IT IS ORDERED that the Millinocket Town Council authorizes the abatement of sewer fees in the amount of \$53.30 for a property located at 33 Riverside Park, Map U17, Lot 021.

NOTE: This request was made due to the fact that the meter for outdoor use for wastewater abatements was found to be broken.

Re: Abatement Request.

This is a request after finding out that the meter that was used for outdoor use for wastewater abatements, was found to be broken. As a rule this person was getting an annual abatement on a regular basis. She did not know that the meter was broken.

Re: Root Removal On Maine Ave.

As you know, we have been experiencing sewer plug problems on Maine Ave. from Colby St. to Bates St. The plugs are a result of overgrown roots, causing sewer plugs on a regular basis at one of the residents in particular. We ask that the council approve this project to avoid any further sanitary sewer overflows in this person's cellar, which will be happening in the near future if this problem is not corrected. We need to avoid these overflows because the DEP will get involved, that we don't need. We estimate the cost to be about \$1,500.00.

ORDER #102-2017

PROVIDING FOR: Approval to expend funds to repair a section of sewer pipe at the corner of Michigan Street and Massachusetts Avenue.

IT IS ORDERED that the Millinocket Town Council authorizes the transfer of funds from Account R-2100-1413 (Wastewater Fund Balance), in the amount of \$10,000.00 to repair a section of sewer pipe at the corner of Michigan Street and Massachusetts Avenue that is in need of immediate restoration.
