Hi All,

Just wanted to touch base with the Events Committee on what my thoughts are for the 4th of July, as we are amid this pandemic and not sure which way things are going to go over the next couple of months. I have talked with Mike Crowley from the Stearns/St Martins Alumni and gather his thoughts on this year's 4th of July. He is looking at not doing the normal 5-year event as they were planning but looking at doing something bigger next year which is also the 120 year of the Town of Millinocket. I have also talked with Central Maine Pyrotechnics about the fireworks display and what would happen if we do not have them this year. These are just conversations at this time, and it is hard to predict what will happen over the next couple of months.

I feel at this time we need to just hold on our planned celebration for the 4th and see where things are come mid-May, we had planned to do our Toll Booth fundraiser On Friday, May 22nd and this is our big money maker for the 4th. I think we just hold until May 15th and see where the Governor and the State are going at that time to make any further discussions. Please let me know your feelings and how we as a committee wish to proceed.

Thanks,

Tom
