Hello,

Thanks for reaching out and expressing interest in hosting **Tesla** Charging.

Based on your property type and geography we recommend you purchase and install **Tesla** Wall Connectors as an amenity for your guests, employees, or residents. For properties that install 6 or more Wall Connectors, **Tesla** will be able to provide a payment platform, meaning as a business owner, you'll be able to get paid back for the electricity you provide to drivers – we expect this to be available in select markets by Q3 2021.

With that said, you can get started today!

Your Next Steps –

- Get an Estimate
 - If you don't already have an electrician to help you, you can find a list of them here: [Find an Electrician](#)
 - Please see the attached Value Engineering Guide for Installation Tips
- Order and install your Wall Connectors
 - Once you know how much it will be to install **Tesla** Charging, you can buy **Tesla** Wall Connectors here – [Tesla Connector](#)
 - If you need a pedestal, they can be found here – [Tesla Pedestal](#)
- Register Your Products
 - Once installed, please fill out our [Commercial Services Product Registration](#) form
 - Tesla does not list residential properties or other private locations on our website

Please let us know if you have any questions.

Thank you,

Tesla Commercial Charging Team
