

## Destination Charging

As a property owner or manager, you can offer Tesla charging solutions as a basic amenity for current or future customers for no monthly fees.

# Wall Connector

Wall Connector is the most convenient charging solution for Tesla and non-Tesla owners. Available on a range of electrical systems, its lightweight design allows for versatile indoor/outdoor use and mounting options.

**Optional pay-per-use**

**No monthly fee**

**Over-the-air updates**

# Unlock Value

Attract or retain customers with convenient  
Destination Charging for any electric vehicle

## Built for Scale

Avoid costly or complex infrastructure upgrades

---

## Customer Satisfaction

Improve driver satisfaction and attract future  
customers

---

## 24/7 Control

Manage your system, find electricians and more  
with the Tesla app

---

## Set Pricing

Control pricing and usage for your customers

# Power Sharing

Reduce the cost of installation and build a system  
that grows with demand.

As more customers transition to electric vehicles,  
your charging infrastructure can link together to  
share power, maximizing charge speeds and  
maintain stable electricity loads.

With power sharing capabilities, you can effectively  
install ten Wall Connectors for the price of three.

# Get Started

Start the installation process right now with no additional appointments or consultations. With easy online ordering, you can design a system around your specifications for your current or future needs.

## Get a Quote

Tesla's [Find an Electrician](#) tool allows you to connect with certified installers who can help you scope your project's specific needs.

---

## Order Online

Purchase up to 12 Wall Connectors in minutes from the [Tesla Shop](#).

---

## Register

Log into your Tesla for Business Account and [activate your system](#).

# Specs

Wall Connector  
\$500 USD
