Youth from the community

Meeting start time: 1:30 PM

Notes:

Discussion on timeline of creating the Youth Center-- a follow up from the last meeting. Three components: (1) inviting the proper stakeholders to participate -- completed; (2) finding location and creating concept/design for the space -- currently being identified, which will most likely be a 2 month process; and (3) identifying funding and executing agreements -- next step, which will most likely take 2 months. Expected completion date (prior to construction) will be November 2021.

Discussed downsides of renting versus owning-- investments made could be permanent for the town, but if purchasing land that's currently being taxed then the town will no longer receive tax revenue from that property.

Asked what would bring more kids to the meetings-- PIZZA!!! Steve said he will order pizza for every meeting moving forward. Potentially have instagram and/or snapchat page for the committee for kids to share what they want/what the committee is doing.
