Fire Station Location: Prioritizing location for future needs

Problem to answer-- What is the best location for the Fire Station in the Town of Millinocket? To be discussed-- what is the ranking of importance of the following needs?

Matrix modeled off of-- https://www.youtube.com/watch?v=DFL9FklrXLI

Fire Station	Importance
Needs	ranked 1-10
Changes to	
building plans	
Central location	
Equipment	
Accessbility	
Training space	
Community	
feel/visibility	
Cost of land	
Multi-use	
investment	
Utility availability	

*Items with a 10 rank will hold higher weight than items a 1 rank

etc

Each location ranked against each need:

0 = minimal/none

ie. If ranked a 9 "This location will have a big impact on this need"

ie. If ranked a 0 "This location will have no impact on this need" or ranked 0

"This location will mean that cost to implement is high", lower rank means

higher cost

3 = Moderate/Medium

9 = Important/Large HIGHER NUMBER= BETTER

	Fire Station needs weighting (from above)								1
Priority rank									
Location	Changes to building plans	Central location	Equipment Accessbility	Training space	Community feel/visibiltiy	Cost of land **note for below- lower rank means higher cost	multi-use	Utility availability	Priority Score
Central Street/Penobscot corner Elks Land Peddler's Hill Katahdin/Central Intersection etc	_								0 0 0
